Frederick
G. K. K. K. have been freed from direct responsibility to the Berlin Ost-Magistrat, but they have not yet been placed directly under the GAI. Recent newspaper statements that the Soviet Sector police have been incorporated into the Land Brandenburg police are completely false. The present status of the Soviet Sector police is not clear even to professional police officers. The fact that Police President Paul Markgraf is not answerable either to the Berlin Ost-Magistrat or to the Soviet Sector "Oberbürgermeister" Ebert appears clear, as well as the fact that he is not directly under the GAI. Nothing has happened which changes the powerful de facto influence of the GAI and the Soviet Commandant, Gen. Alexander ~~Belokobyl'son~~ on the Soviet Sector police, but the de jure situation is anomalous. *Alvin*

2. Effect on Personnel Policies. The above described situation affects the police at present chiefly from a personnel standpoint. It is at present not even clear whether or not the Magistrat is obligated to pay the salaries of the police. Further, according to a statement of GAI President Kurt Fischer, the Soviet Sector police are now to be considered civil servants and will no longer come under the provisions of the workers' law and the civil code ("Bestimmungen des Arbeitsrechtes und des Bürgerlichen Gesetzbuches, Dienstvertrag", pp. 620 ff.). However, no new civil service law ("Beamtenecht") governing the status of the Soviet Sector police will be written despite the fact that the commitments of the police in relation to the city government -- employment terms, oath of allegiance, oath of office, degree of responsibility, availability for special commitments ("Einsatzbereitschaft"), disciplinary punishment, and so forth -- exceed those normally required of civil servants. During the period covered by their contract, which amounts to an enlistment, the police cannot resign; neither, if dismissed, may the circumstances surrounding their dismissal be inquired into by a court.
